TNTEU GUIDELINES FOR EVS RECORD

9. Environmental Education Record

The student teachers prepare a record about the process that allows individuals to explore environmental issues, engage in problem solving, and take action to improve the environment. The Environmental Education Record should include the Components of Environmental Education such as:

- ✓ 1. Environmental Education – Meaning, definition & importance
- ✓ 2. Objectives and guidelines of Environmental Education
- ✓ 3. Environmental degradation – impact on land, air, water, food and health
- ✓ 4. Recent Environmental threats around the world
- ✓ 5. School environmental survey (done in practice school)
- ✓ 6. Prepare a pictorial album – national / international level on environmental issues
- ✓ 7. Activities done in college related to environmental protection in the academic year (any 5 activities)
- ✓ 8. Environmental awareness song / slogan / skit written by each student on their own
